Christi Etterling Marsh
Texas AirSystems

"I put no limits on my abilities because I honestly believe there is nothing I cannot do," says Christi Marsh.

As the office coordinator for Texas AirSystems, an HVAC manufacturers' representative firm, Christi is making her mark on the San Antonio construction industry. Born in Columbus, OH, she spent most of her life in Mt. Vernon and the surrounding area.

"I Moved to San Antonio in 1995 and totally fell in love with this city. San Antonio has truly become my home.

"I became involved in the construction industry seven years ago when I started working for a large HVAC company. The experience I gained from this position ranged from service sales assistant to contract and service job estimating. This industry is very tight knit due to its emphasis on relationship building, and I am known for doing my part to keep everyone in touch.

"I enjoy a challenge and working with people, and have been blessed to find people in this industry who are willing to teach me anything I want to learn."

Christi graduated from Central Ohio Technical College with a degree in business administration.

"Accomplishing this as a single parent while working three jobs, I count as one of my greatest achievements."

Balancing work and family is another challenge Christi counts as an

accomplishment.

"I am a military wife. My husband, Dale, has just completed 18 years in the United States Air Force and plans to continue serving until retirement. I have three children, a daughter, Brittni (19), and twin boys Michael and Marcus (4). We also have our two dogs, Finnigan (my Yorkshire terrier) and PJ (my husband's dachshund).

"I enjoy entertaining, hosting dinner parties, and catering for friends and family. My future plans are to open my own catering company."

Christi is actively involved in the National Association of Women in Construction (NAWIC), and helped organize the recent NAWIC Golf tournament at Canyon Springs. Everyone had a great time, we were able to make new contacts and put faces with names of people we don't always get to see. I also enjoyed being one of the volunteers who helped with the handicapped transportation at Sand Fest in Port Aransas.

"This organization has allowed me opportunities to get involved and give back to our community, learn about other businesses in the area, and make new friends." -kf
